# The Four-Step Method

# Why Us?

SkyGuard Coatings products provide you with significant advantages over roof replacements. Our maintenance coatings can be written off in the current year, saving you money, while also extending the life of your roof.

You will benefit from energy savings, thanks to our highly reflective surfaces that keep your roof cooler, reduce the heat island effect in cities, and improve the efficiency of your solar panels.

## Key Differences in SkyGuard Coatings:

- **Innovative Formulations**, built with your needs in mind.
- **Personalized Approach**, we focus on delivering a personalized experience.
- **Sustainability**, our maintenance coatings will withstand the test of time.
- **Durability**, providing long-lasting solutions to meet your needs.
- **Personalized Expertise**, because your satisfaction drives us.
- **Commitment to Quality**, ensuring each solution we provide to you is effective, reliable, and of the best quality.
- **Customer Focus**, we care about your peace of mind.

# Our Mission

SkyGuard Coatings creates durable, sustainable roofing solutions tailored to your needs. Our commitment to you is to provide products with excellence, integrity, and innovation. We strive to protect and enhance the value of your roof.

Do you have a unique project with specific needs?

# 4 STEP Method

## SkyLab Cleaners

Clean your roof with our SkyLab Roof Wash. Dilute, spray on the roof, then remove using a brush and a pressure washer or hose.

## Gemini Primer

For single-ply or rusted metal roofs, apply Gemini Multi-purpose Primer. It enhances adhesion on single-ply, prevents rust on metal, and increases ponding water and bleed through resistance on modbit roofs. Apply at 10 - 15 wet mils.

## Apollo Mastic

Apply Apollo Mastic to seams, penetrations, screw heads, and any damaged areas. Use 1 gallon per 50 linear feet at a width of 6 inches.

## Artemis Coating

The Artemis line of coatings should be applied in two passes, with 24 wet mils per pass. Select the appropriate coating based on your specific requirements.
